

# x-mind optima 3D

The most compact CBCT in  
the market offering AI for life\*

 acteon

 acteon

\*AI features are implemented on RealGUIDE™ software, distributed with X-MIND® optima 3D by ACTEON®

## Remarkable clarity

The new sensor technology combined with the advanced ClearIQ filter on X-MIND® optima 3D boosts image quality to the next level, for better clinical detail and accuracy.

## Extended capabilities

The comprehensive FOV's offer of X-MIND® optima 3D, ranging from **5x5 to 17x12 cm**, makes it ideal for advanced orthodontics and maxilla-facial surgery applications.

## AI that RealGUIDE™ you

Built on Acteon Imaging Suite 5.4 and empowered by AI on RealGuide 5.4, X-MIND® optima 3D **simplifies your daily workflow allowing you to focus more and more on patient care.**

## WeDiagnostiX™ to improve your care

X-MIND® optima 3D, combined with the AI-based WeDiagnostiX™ decision support system, automatically identifies and highlights clinical features in panoramic images, simplifying communication to the patient for better acceptance of the treatment plan.
